OLD MEMBERS RESENTING CRITICISM BY NEW ONES

The Aqueduct Commission at each meeting gives avidence that it is no longer a happy family. The bew members of the board show that they are strongly melined to criticise the actions of the old board and the remaining members of the old board and the remaining members of the old board and the remaining members of the old board naturally resent this. At the meeting yesterday the Committee on Construction presented a communication stating that it had been said that the cricks used on Sections 4 and 5 were of a quality unsuited for the arch work of the tunnel, and that the Chief Engineer be directed to have them removed. -MR. SQUIRE'S ECONOMY.

Mr. Squire—Fits is not a proper resolution. If the closs are bad the Chief required should know it. If he are they are good and they prove to be bad I will vote to dismis him.

Mr. Baldwin—This is a matter for the Committee on
Construction and Chief Engineer to examine and report

as point.

Mr. Baidwin—If I had not been put off the Committee
Mr. Baidwin—If I had not been put off the Committee
are gone along.

Mr. Baidwin—It I had not been put of the Committee en Construction by you gentlemen I probably would have gone along.

A long discussion followed and finally Commissioner flarnes offered a resolution that as information had been received that the bricks used on Section 4 and 5 were of a quality untit for the work, the Chief Engineer examine them and if he finds them poor that he require the contractors, Brown, Howard & Co. to remove the bricks from the line of the work. This was carried. Mr. Barnes offered another resolution, that the Chief Engineer he required to comply with the provipions of the by laws in keeping the tunnels properly lighted and the ventilation good. Mr. Squire moved to amend this by directing the Chief Engineer to investigate and report whether any part of the tunnel is not sufficiently lighted and ventilized, and if he finds this to be the case to have it remedied. This was agreed to. Mr. Barnes offered a resolution that a part of the masoury in the open cut at the Pocantico River Crossing near the eyes find to the proper whether the open cut at the Pocantico River Crossing near the specifications and that the Chief Engineer be directed to renort what steps are necessary to remedy the defects in the work. This was carried. A communication from Mr. Squire was read, saying that for some time he has been convinced, when certifying the pay rolls of the commission that the Engineer Corps was altogether too large and could be diminished without detriment to the work. He had made an investigation and obtained information which satisfied him that his helief was well founded. As almost all of the necessary preliminary work is now completed and the work of construction is organized and well under way, the present force can be hargely reduced and nearly one hait of the present expense saved. After consultation with his Chief Engineer he believed the work of the produce, eight readned, eight has some completed and hearly one hait of the present expense saved. After consultation with his Chief Engineer

ect was referred to the Committees on Finance and Construction.

Mr. Powd offered a resolution that as the Jerome Park survey and that of the Quaker Bridge Dam ave been under way for more than a year, the hief Engineer close them on or before next Tuesday. It was finally resolved that the Chief Engineer he requested at the next meeting to report on the coordition of the survey.

The hearings on the plaus and specifications for the sections below the Harlem River were declared

THE DOCK BOARD GETS A NEW PRESIDENT. STARK SUCCEEDS MR. KOCH-THE BOND BILL APPROVED.

APPROVED.

A chill passed through the employes of the Dock Department yesterday when it was announced that i resident Kech had retired from the executive flow. The election of the president for the year took place at the regular meeting. Commissioner Matthews cast his vote for Mr. Stark for president and Mr. Stark voted for himself. The vote was then made unanimous. Mr. Koch, with a slight flush tinging his features, congratulated the new president. The bill allowing an issue of bonds for the Dock Department for repairing the water front and building new piers is now awaiting the signature of Governor Hill. Mr. Matthews said that while he believed the bill a necessity to give the Department the means of putting the water front in proper condition he objected to some of its terms. Mr. Koch defended the bill vigorously, saying:

The great trouble has been with this Department that

tion, he objected to some of its terms. Mr. Koch defended the bill vigorously, saying:

The great trouble has been with this Department that it has always had the re-utation of doing things that it never intended to do. This bill asks for what the Department has wanted but has never dared to ask for.

Mr. stark—I want to say that, while we may differ as members in our opinious on some measures, we are mutted, I think, in our support of the bill and we should send word to that effect to Governor Hill. Whatever my opinious is, I am not criticising your efforts in behalf of the bill, Mr. Koch.

Mr. Koch—There has been a great deal said of a demonstrey character about my efforts for this bill, but any one who repeats these intimations utters a falsehood.

The Board concurred in Mr. Stark's suggestion, and word was sent to Albany that the bill had the approval of the Board. The bill will provide a fund of \$2,000,000 for the Department, Mr. Stark is the oddest member of the Board and has served several terms as president. He is one of the oldest members of the Produce Exchange. He said in regard to his re-election as president of the Board that the change has no political significance whatever. Mr. Koch said that he retired at his own wish. A former official of the Board, who is conversant with its aflairs, said that there was more meaning in the change. He added:

Mr. Koch has been running everything in the Department for a year. He came into the Board without

change. He added:

Mr. Koch has been running everything in the Department for a year. He came into the Board without knowing anything about its interests and has made a number of changes to suit himself and his friends. Mr. Matthews has been in bad health and Mr. Stark is not strong, so that Mr. Koch had everything his own way. He has tried to run the Department in Albany as well, and in the meanine Commissioners Stark and Matthews have opened their eyes, formed a combination and called a halt. I don't believe Governor Hill would seen the Dock bill with Mr. Koch president of the Board, but it will make a difference with Mr. Stark at its head.

A NOTORIOUS SHOPLIFTER SENTENCED.

Sophie Elkin was a pretty girl a quarter of a century ago. She was then only fourteen years old, and fived with her father, known to the police as "Old rikin, the fence," It was at that time that sophie married "Ned" Lyons, the noted bank burglar. After their marriage the pair succeeded in accumulating a fortune. Sophie became one of the most noted shoplif ers in the city. Time and again she was detected and sent to prison. She has spent a large part of her life behind the bars. About fifteen years ago the pair went to Europe, In a couple of years they came back to New-York, having squandered all their ill-gotten wealth. They continued their career of crime. "Ned" Lyons served out a term for burglary in a Connecticut prison and is now confined in the State Prison in Massachusetts. For five or six years nothing had been known of Sophie. On June 2 Charles A. Bonaventure, the private detective in the store of H. C. F. Koch & Son, Sixth-ave, and Twentieth-st., discovered a woman in the act of A NOTORIOUS SHOPLIFTER SENTENCED.

THE WESTERN UNION DIVIDEND PASSED.

THE WESTERN UNION DIVIDEND PASSED.

The directors of the Western Union Telegraph Company, at their quarterly meeting yesterday, sclopted the recommendation of the Executive Committee that no dividend be declared. Mr. Gould was not present, although he came to the city in the morning as usual. It is understood that he had a more important engagement. There was no opposition to the proposed action, and the vote was unanimous. There was a bare quorum at the meeting, but among those present were John J. Astor and Robert Lenox Keunedy.

The Western Union has passed its dividend on March 8, 1876, under the presidency of William Orton. In the light with the Atlantic and Pacific Company, which was organized by Mr. Gould. The condendrate at that time was 1½ per cent, and the last to the stockheiders was made up partially in reember, 1879, by the declaration of an extra dividend of 1 per cent. This is therefore the second time that the dividend has been passed since the ampany began the regular payment of dividends in July, 1874. There was a long interval before that time in which no dividends were made, and before that they were paid according to the tarnings of the company in what was virtually its formation period. The in portance of its present action is considered the greater on this account.

John H. Couran, of No. 251 West Forty-eighthst., complained in the Yorkville Police Court yesterday that Micheal A. Meagher had obtained \$150 from him fraudulently. Couran said he met the prisoner on a car and received an invitation to call at No. 231 Broadway, where Meagher said his brother was managing a real estate business. Couran called, and finally made arrangements to take a half interest in the business for \$500, leaving \$150 cash. He was to receive from \$18 to \$25 a week. He says he waited three weeks for a settlement without seeing much business done and then wanted his salary, but only notes were offered him. Fre lorick 8, Manley was in court and said he had called in \$13th ave. hear One-hundred-and-fortleth-st. in abswer to an advertisement on April 23 and was induced to deposit \$500 for a third interest in an employment agency, and afterward \$500 more for a quarter interest in a summer resort directory scheme. Neither seemed satisfactory and he took 200 shares in a company which was to do a paying business in revising manuscript for unknown authors. Meagher, he says, was the prime factor in these various schemes. Manley thus far had only notes to show for his outlay. The prisoner was held in \$500 on Couran's complaint. Much annoyance has been felt at the Sanitary Bureau on account of the typhus fever epidemic in the Deborah Nursery, at No. 103 East Broadway. Twenty-seven children and one adult, who were found suffering from the fever, have been removed from the institution to North Brother Island. Althoush children, as a rule, do not the from the fever, they can easily spread the contagion, and the disease is likely to prove fatal in acult cases. The children in the nursery are of Hebrew birth, and most of them have relatives in the crowded tenement-house quarier cast of the Bowery. Seventy children at the nursery have not exhibited any symptoms of the fever yet. It was decided yearerlay to take them to North Brother Island, and place them in a separate pavilion. They will be taken to the foot of East Sixteenth-at to-day, two street ears having been chartered for their journey in the city, and the Health Department steamboat will convey them to the island. The cost of their maintenance will be paid by the nursery managers. Probably the children will be kept on the pretty little island for a mouth or more, and they will have a good time there. When their companions now in the fever pavilion have recovered and all danger of cestagion is over, the children will be sent back to the nursery. Much annoyance has been felt at the Sanitary

The company is to run a ferry from pier No. 2 East River to some point between Twen-ty-eighth and Thirty-minth sts., Brooklyn.

DETECTIVES WHO DIDN'T STOP POOLSELLING. It was said at Police Headquarters yesterday It was said at Police Headquarters yesterday that the action of the commissioners, in remanding Detectives Dunlop, of the Twenty-ninth Precinct, and Hagan, of the First Precinct, to patroi duty, was caused by a complaint from Anthony Constock that the officers had failed to prevent the soling of pools on the races at Jerome Park at places in their precincts. Detectives Gerrow and Mulvey were recently remanded to patroi duty from the Sixth and Twenty-seventh Precincts, for the same reason, it was said. Superintendent Murray had given strict orders to stop posisiting in the city, yet Mr. Comstock's assistants had succeeded in buying pools on the races at places in the four precincts.

THE CITY'S CLAIM TO THE FIELDS JUDGMENT. Controller Loew has written to Attorney-General O'Brien that although the judgment for \$644,421 91, recovered against Thomas C. Fields in 1878, was in the name of the people of the State, really it belonged to the City of New-York, as the money was fraudulently taken from the City Treasury. The Con-troller, therefore, requests that the Attorney-General will inform him what conditions of settlement are pro-posed by the heirs of Mr. Fields before a settlement is made.

A BURGLAR AT THE RACQUET CLUB. A BORDAR AT THE RACQUET CICE.

A big German stood blubbering before Justice Power in the Jefferson Market Police Court yesterday, accused of having early in the morning burgiarious ip entered the rostaurant of Fred Humpoh, in the Racquet Club building at Twenty-sixth-st, and Sixth-ave. The prisoner gave the name of Charles Miller and his age as twenty-two. He said he had lived at No. 11 Bowery. He had found himself up-town at 2 o'clock in the morning, and a man had told him that he could go

into the restaurant and sleep. Notwithstanding this in-genious defence Juctice Power held Miller for trial.

APPROVING THE OLEOMARGARINE TAX BILL. The Board of Trade and Transportation yesterday held its last meeting before the summer vacation. J. H. Seymour presided. A. B. Miller read a paper relative to the traffic on the Eric Canal, to show the own important the canals are to the interests of the State, they being "the bulwark of protection against high ralized tariffs," and to show the absurdity of continuing a niggardly policy in regard to their maintenance. In May the canals brought to New York 414, 289 bushels of grain more than were received at Baltimore. Philadelphia and Boston, the total being 4,456, 100 bushels.

philadelphia and Boston, the total being 4,450, 100 bushels.

F. B. Thurber read a resolution advocating the passage of the Oleomargarine Tax bill. Mr. Thurber has been oredited with having a large interest in the manufacture of oleomargarine, hence his resolution was anyprise to many. It declared that local efforts to compel the honest sale of butter substitutes have proven inadequate on account of the inter-State character of the trade in many parts of the country, and that the Board was in favor of the bill now before the Senate, as it is in the interest allke of producers, consumers and honest dealers that it should become a law. He said there was a time when he believed it could become a legitimate food product and be honestly sold; that more than two years ago he became convinced to the courtary and refused to deal in it. He had reason to be lieve that nine-tents of the product is sold upon misrepresentation.

trary and refused to deal in it. He had reason to believe that of incrents of the product is sold upon misrepresentation.

George B. Douglass opposed the resolution with considerable warmth and broadly suggested dishonest motives on the part of some of his opponents. He said he was not an oleomargarine man, had no interest in its manufacture, but was astounded to hear such resolutions presented to the Board. The action of the merchants in favor of the bill was selfshness personified, a debauching of public minds for the sake of the pockets; honorable merchants were hard at work poisoning the minds of people as far as the coast of Maine.

Mr. Douglass was interrupted by Mr. Callanan, of Callanan & Kemp, who assured him that not one pound in one hundred of oleomargarine was sold as such. Mr. Seymour seconded the resolutions because they were "almed against the most gigantic swindlers who ever existed, and the Board has always arrayed itself scalast frand." The resolutions were adopted with only two negative votes.

The Committee on a National Bankrupt Law reported that notwithstanding "Congress has not seen fit, in its wisdom," to grant relief to the commercial interests of the country by enacting a National bankrupt law, it would be advisable to continue efforts to secure such a law. The recommendation was approved.

NEW SUPERINTENDENT OF SCHOOL BUILDINGS.

The Board of Education yesterday appointed Goorge W. Debevoise Superintendent of School Buildings at a sainty of S4,500, to succeed David I. Stage, who deed last month. Mr. Debevoise prepared the plans for the house of A. T. Stewart at Thirty-fourth-st, and Fifthave, and superintended the erection of the building. He has been for a number of years a school trustee in the Twelfth Ward. Only one candidate was presented in opposition to Mr. Debevoise, Andrew G. Thomson. After several ballois the name of Mr. Thomson was withdrawn by Commissioner Gustav Schwab, and Mr. Debevoise roccived the eleven votes necessary for an appointment. The Superintendent of School Buildings makes the plans and supervises all new buildings and repairs. All estimates for school furniture from the ward trustees are also submitted to him before they are passed on by the board. Commissioner Devoe says that within the next five years the city will be obliged to spend fully \$3,000,000 for new school buildings. NEW SUPERINTENDENT OF SCHOOL BUILDINGS.

Inmates of the rear tenement house No. 159 Greenest, were startied at 8 a. m. yesterday by a sound like the report of a pistol, followed by sereams of children in the yard. Little Joseph Rubine, the son of an Italian washer-woman who moved into the house a few days age, had found a cartridge of some kind in the yard and had been amusing himself and his baby sister by pounding with it on the flagstones. Suddenly the cartridge exploded and tore off three ingers of his left hand. His skin was dotted in several places by small punctures, like those made by a pin, and his sister hand received like injuries. The boy was removed to 8t. Vincent's Hospital. No fragments of the cartridge could be found and the police believed that it had contained a small quantity of dynamite.

While playing with a pistol at his home. No. 665 East Fity-eighth-at. yesterday morning, James McDonouch, age nine, shot his left foreflager, nearly tearing it from the hand. He went to the Ninety-ninth Street Hospital to have the wound dressed. Inmates of the rear tenement house No. 159

Controller Loew, at the meeting of the Board of Estimate yesterday, introduced a resolution authorizing the issue of bonds from time to time to pay for the contracts for local improvements made before January 1, 1885. He had received the opinion of the Corporation Counsel on this subject and this was the only way the funds could be obtained. This was adopted, Pelice Commissioner Voorhis asked for an appropriation of \$110,000 to provide for appointing 300 additional patrolimen between now and December 31, and \$40,000 for patrol wagons for the department. Controller Loew said that he had received an opinion from the Corporation Counsel that no money could be appropriated for patrol wagons this year. The Controller moved that \$110,000 be appropriated for the patrolimen. President Coleman offered as an amendment that only 100 patrolimen be provided for. This was lost and then the original motion was carried.

Ex-Judge Howland advocated the bill now before the Governor directing the Board to appropriate certain amounts for free circulating libraries. The Board is opposed to mandatory legislation and cannot make an exception in this case. PROVIDING FOR NEW PAIROLMEN.

from the controller together with a statement from him that he would have a supplementary budget provid-ing for the increase of the police force. Lieutenant V. Couman, United States hydrographer, asked that the membars consider the practicability of placing 'time balls' at convenient places throughout the city. This was sent to the Committee on Law.

STEALING A POOR WOMAN'S SAVINGS. STEALING A POOR WOMAN'S SAVINGS.

Charles Walters, age twenty-two, and Charles Krause, age twenty-one, were rearraigned before Justice Welde yesterday at the Essex Market Police Court by Detectives McCauley and English for stealing \$1,350 in bills from Mrs. Margaret Jones, who keeps a funcy store at No. 42 Jackson-st. The theft took place in the rooms occupied by the mother of Krause, at No. 237 Monroe-st., on June 7. Walters is a musician, blind in one eys. Krause is a laborer. They were held for trial at General Sessions, The complainant had only just taken the money from savings banks when she met the prisoners while she was visiting in Mouroe-st.

IN HONOR OF JOHN KELLY'S MEMORY. The Committee of Twenty-four of the Tam many organization last evening perfected arrangements for the meeting in honor of the memory of John Keily in Tammany Hall to-morrow evening. The principal address will be by George Raines, of Rochester. Addresses will slace be made by Bourke Cockran and others. The boxes will be reserved for ladies and their escorts.

ARRESTED FOR ALLEGED BREACH OF PROMISE. Joseph C. De Becker was arrested yesterday on an order issued by Judge Donobue, of the Supreme Court. The complainant, Florence C. Smallcombe, asks for \$10,000 damages for alleged breach of promise of marriage. She says that the defendant told her he was a buyer for the firm of Rothman, Strume & Co., importers of Japanese goods in East Twenty-first-st. In default of ball the defendant was sent to Ludlow Street Jali.
